

Multiplication War

Multiplication Facts

Materials: Regular Deck of Playing Cards (remove all face cards)

- Play with two players.
- The object of the game is get all the cards from your opponent.
- Deal all the cards between the two players.
- Each player turns two cards over in front of them and multiplies them.
- The player with the largest number wins all four cards.
- The game ends when a player is out of cards. The player with the most cards wins.
- This game can be simplified by removing cards six through ten to focus on multiplication one through five.
